SPRING STREET RESURFACING IN BURLINGTON BEGINS

BURLINGTON, NC— The Burlington City Council entered into a contract for street resurfacing with Riley Paving on December 2, 2014. The City of Burlington selects roads to be resurfaced each year. During spring resurfacing this year, 7.0 miles of roads will be repaved.

Manholes and water valves are currently being raised on the streets that will be resurfaced. Milling is currently underway on select streets. Paving will begin on Monday, March 23rd, weather permitting; all 7.0 miles of roadways will be resurfaced by May 15th.

Paving will begin on the eastern most road sections and work will progress westward through the city on the selected streets. A map of the road sections to be resurfaced is attached.

A travel lane will remain open during the paving process where possible. Detours will be posted and/or a flagger will be present to direct traffic as needed. “No parking” signs will be placed the on roads to be paved 24 hours prior to paving operations beginning.

Questions regarding the street resurfacing project may be directed to City Traffic Engineer, Jason Geary at (336) 570-6156.

###

Our Mission:

“The City of Burlington is dedicated to providing high quality municipal services within our diverse community in a friendly, professional and efficient manner in order to promote the safety, health, and quality of life of residents and employees.”
