

Health & Safety Precautions

- Games and activities will be structured to enforce social distancing measures.
- Cleaning and sanitation practices will be increased. We will have staff regularly cleaning throughout the program.
- Based on the recommendations from the CDC, cloth face masks will be worn by students and staff during indoor activities when maintaining 6 feet is not feasible.
- We will be doing a temperature and health screening for students and staff daily. Students will have their temperatures checked upon arrival. If any student or staff displays a temperature of 100.4 or higher, they will not be permitted to remain at the site.
- If a student develops symptoms during the program, they will be isolated and will have to be picked up immediately. Students will be excluded from the program until they can answer YES to ALL the following questions (per NCDHHS):
 - Has it been at least 10 days since you first had symptoms?
 - Have you been without fever for three days (72 hours) without any medicine or fever?
 - Has it been three days (72 hours) since your symptoms have improved?
- We will be limiting the number of individuals allowed at into the site. Therefore, we have developed a drive thru pick-up procedure for students. Temperature and health checks will be conducted before the student can enter the site. Each family member may be given a car placard with their student(s) name to be called during pick up. We will still require adults to show their IDs before they can take a student home (names must be on the registration form).
- We will place designated staff outside at pick up, from 5:00-6:00pm. If for any reason there is not a staff outside, please call the site cell phone.
- We will have increased hand sanitizer stations and designated hand-washing times. All students will be expected to practice proper hand-washing techniques.
- During meals and snacks, all students will be socially distanced from one another.
- **Afterschool:** Starting the 2nd week, dinner will be provided by CACFP for all students. We will also provide an afternoon snack. Please ensure your student comes with a water bottle daily (water fountains will not be used.)
- **Virtual Learning:** Breakfast and lunch will be provided by ABSS for all students. We will also provide an afternoon snack. Please ensure your student comes with a water bottle daily (water fountains will not be used.)
- If your student displays behaviors that are not conducive to social distancing measures, we reserve the right to suspend them from the program. Please see the refund policy.
- **Any scenario in which many people gather together poses a risk for COVID-19 transmission. Burlington Recreation & Parks will follow guidelines published by the CDC and NCDHHS to minimize the opportunity for COVID-19 transmission, however, families must recognize that it is currently impossible to eliminate all risk of transmission when participating in activities outside of the home.**
 - *Before your student can attend, parents will be asked to provide a signed copy of The City of Burlington's Liability Waiver Release for Communicable Diseases (found on the website).*
